

**FOR YOUTH DEVELOPMENT
FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY**

VALLEY YMCA CHILD CARE CENTER

2020 Child Care Safety

Safety is our first priority. All Central Connecticut Coast YMCA Child Care Programs will follow all the guidelines set by the CDC, CT Office of Early Childhood (OEC), local health department, Y-USA, and other sources to ensure our policies and procedures are aligned to keep our children and staff healthy and safe.

Health screenings: All staff and children are required to be screened for any observable illness, including cough or respiratory distress, and to confirm temperature below 100 degrees Fahrenheit each day on arrival. Screening includes assessing health by taking temperature.

- Program staff will be prepared to take child's temperature with a touchless thermometer; parents may take their own child's temperature upon arrival, as long as they show the temperature to the drop off staff member.
- Thermometers will be disinfected.
- Program staff will ask parents screening questions as provided by the CDC.
- Families will have staggered drop-off times/locations assigned. When arriving, they will wait outside at marked spaces by their designated entry.

Staff or children who have a temperature greater than 100 degrees are not permitted into the program and are required to be unmedicated fever free for at least 48 hours. Any staff or child that develops an elevated temperature or who may be ill, will be put into an isolated area until they can be picked up.

All groups will have a limited size of no more than 10 children. Each group will be isolated from all other groups.

Face masks:

- All staff, volunteers and adults will wear face coverings at the program.
- Children in our care will need to wear a mask during the majority of the day. They can take them off at meals (breakfast, lunch and snack), at nap time, and for outdoor play. We will have planned mask breaks throughout the day at which time we will utilize social distancing (6 feet).
- The mask must cover the child's nose and mouth.

Hand hygiene: Regular hand washing with soap and water for at least 20 seconds will be done.

- Before coming in contact with any child
- Before and after eating
- After sneezing, coughing or nose blowing
- After using the restroom
- Before handling food
- After touching or cleaning surfaces that may be contaminated
- After using any shared equipment like toys, computer keyboards, mouse

If soap and water are not available, use an alcohol-based hand sanitizer. Use of alcohol-based hand sanitizers should always be supervised by adults.

Cleaning protocol: Additional procedures will be put into place to ensure surfaces and areas are sanitized between usages, per guidelines put forth by the OEC. This will include surfaces and areas sanitized between usage with cleaning products approved by the OEC. Please note that dramatic play, sensory materials and other items that cannot easily be disinfected have been removed from classrooms. Each child will have their own container of art materials, i.e. crayons and playdough.

Communications: Families are required to sign the OEC waiver, CCC Y waiver and policy receipt prior to returning to the program. If a child or staff member who has been present in the program is diagnosed with COVID-19, the program will notify families and staff of the program about the exposure.

What to bring: Please keep backpacks at home. Children should arrive with a nut free lunch and breakfast, if needed, in a labeled zip lock bag. We ask that personal toys stay home. 10/14/2020
