STRONG SWIMMERS = CONFIDENT KIDS

For more than 160 years, the YMCA has nurtured potential and united communities across America to create lasting, meaningful change. Everything the Y does is in service of building a better us. One of the most effective ways to accomplish this is to teach youth, teens, and adults to swim, so they can stay safe around water and learn the skills they need to make swimming a lifelong pursuit for staying healthy.

Our Y swim instructors are nationally certified. Their training includes CPR, AED, First Aid and Oxygen Administration.

Swim lessons provide important life skills that could save a life and will benefit students for a lifetime. All ages - from infants to seniors - can learn to swim at the Y. Check out our class offerings to find one that fits your family’s busy schedule.

*At the Y, we know families take a variety of forms. As a result, we define parents broadly to include all adults with primary responsibility for raising children, including biological parents, adoptive parents, stepparents, grandparents or any type of parenting relationship.

WINTER 1 SCHEDULE

Lessons will run Tuesday, January 2 through Sunday, February 25.
Weekday lessons will run without break through Monday, February 19.
There will be no lessons on Saturday January 13 or Sunday, January 14.

Do you know anyone who was diagnosed with Parkinson’s Disease? Maybe you have Parkinson’s?

Parkinson’s is a disorder of the Central Nervous System that affects movement, often including tremors. Other symptoms are slow movement, stiffness, and loss of balance. The symptoms of Parkinson’s are unique to each individual. A Parkinson’s diagnosis can cause fear and uncertainty, but the good news is that there are ways to manage Parkinson’s Disease symptoms and live a fulfilling life.

Studies show that regular exercise can help maintain balance, mobility, and the ability to perform daily tasks thus slowing the disease process and decrease pain associated with Parkinson’s Disease.

Participants will be evaluated by a Physical Therapist for their readiness to begin an exercise program and will be assessed using the 30 Second Sit to Stand Test and Timed Up and Go.

Each session will be 45 minutes in length that will include strength training, balance exercises, flexibility exercises, and aerobic activity.

Sessions will be in a group setting and participants will be supervised by a certified personal trainer or physical therapist to ensure safety.

PARTNERS IN HEALING
THE WHOLE PERSON
LIVESTRONG at the YMCA

Cancer is a life changing disease that takes a tremendous physical and mental toll on those affected. The Y and Livestrong have joined together to create LIVESTRONG at the YMCA, a researched based exercise and well-being program designed to help cancer survivors regain their total health.

Participants work with Y staff in supportive cancer care to safely achieve their goals such as building muscle; increasing flexibility and endurance; and improving confidence and self-esteem. By focusing on the whole person and not the disease, LIVESTRONG at the YMCA is helping people move beyond cancer in mind, body and spirit.

Thanks to our generous supporters, this program is offered FREE and includes a 3-month family membership.
